EU export destinations, 2016 vs. 2017

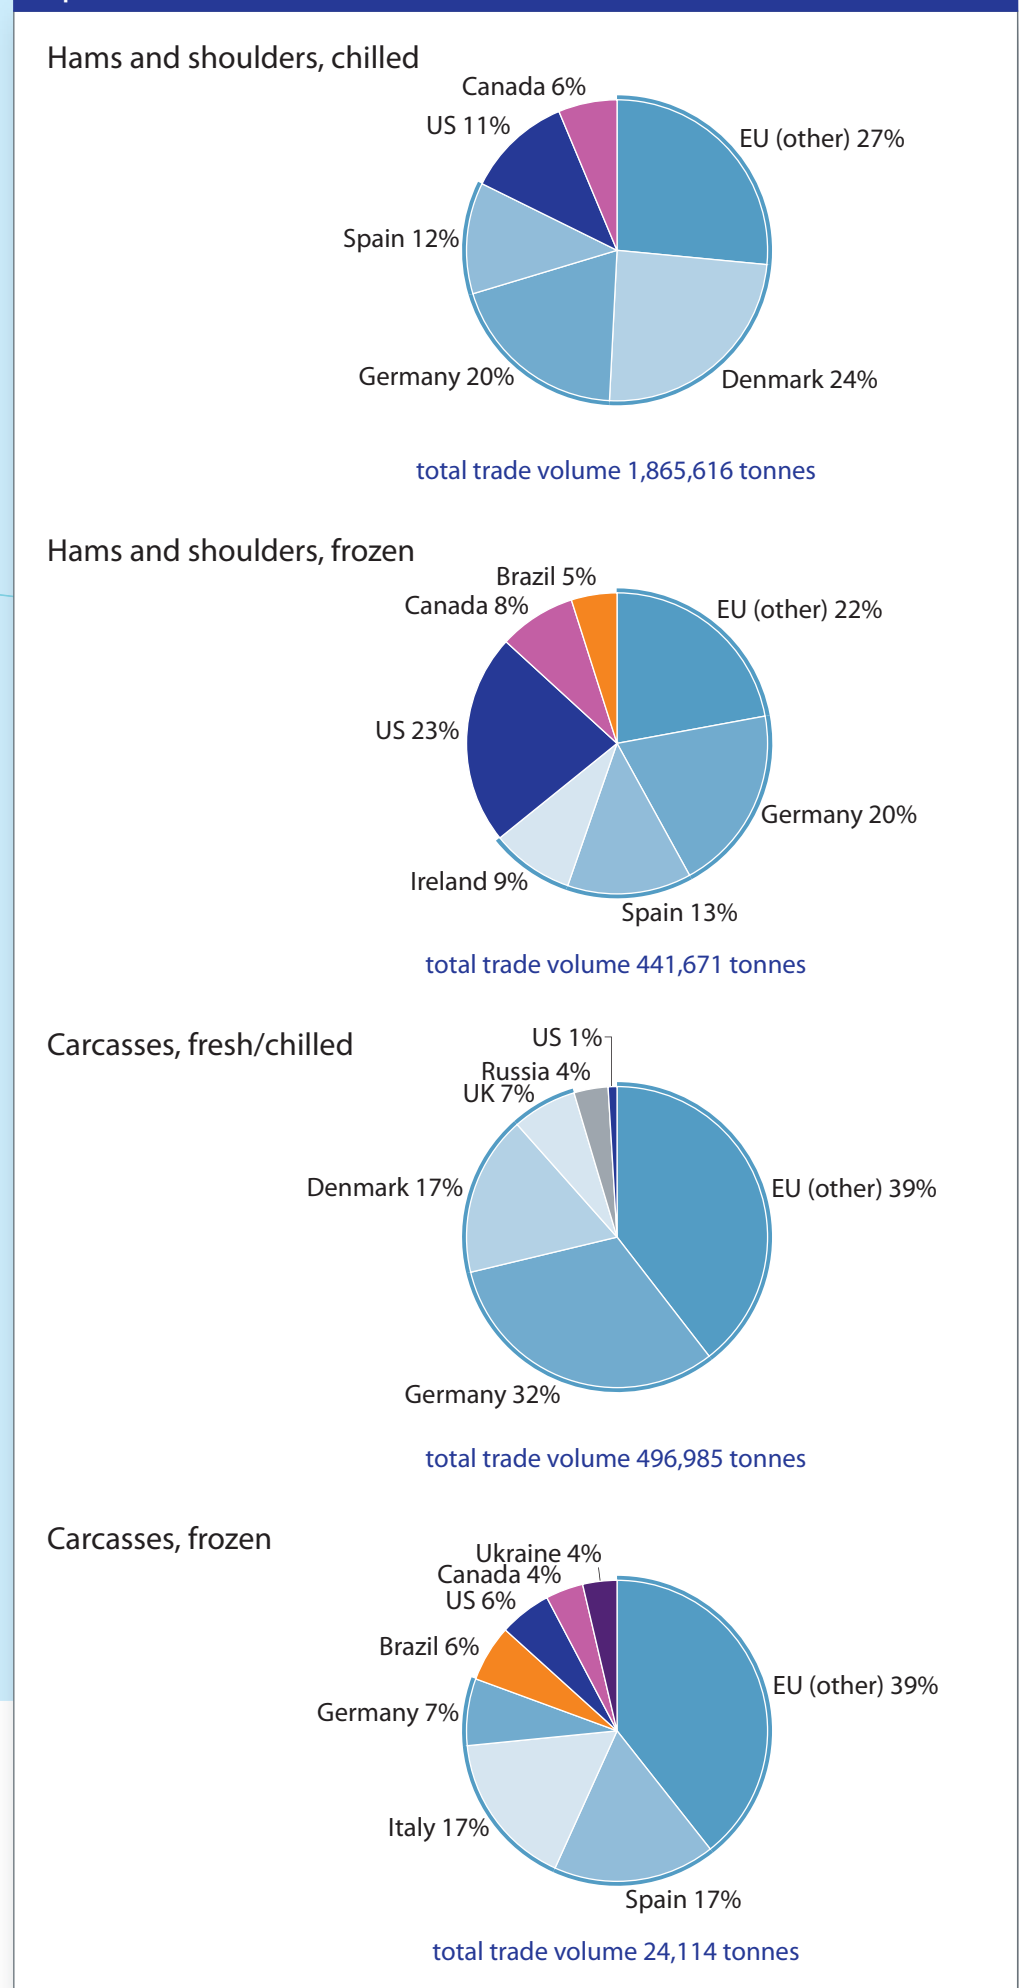

EU trade, 2017

EU trade, Netherlands, 2017

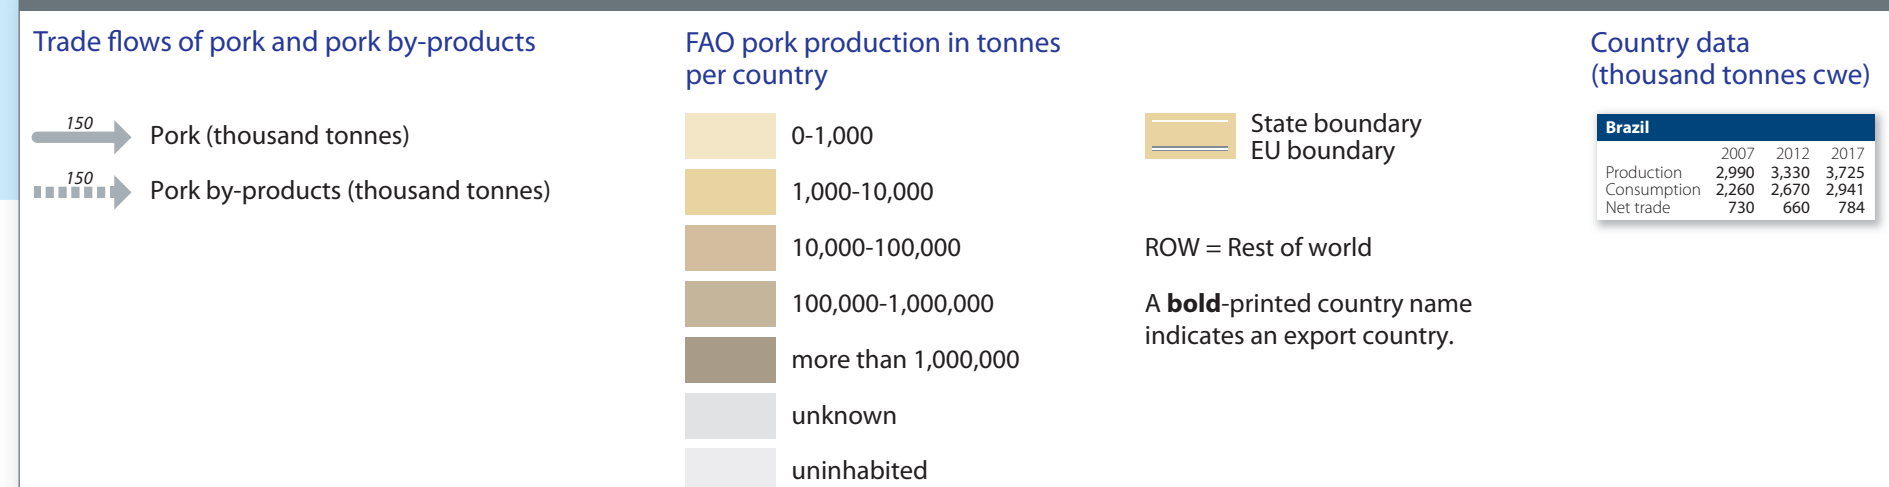

Export shares meat, 2017

Legend

The data refers to 2017. Only trade flows above 15,000 tonnes are displayed. Pork by-products refers to products suitable for human consumption. The national balance tables use net figures. The charts only display export shares of main countries >= 1% of world volume. Quantities of pork meat trade, consumption and production are defined in carcass weight equivalent. Quantities of by-products are defined in product weight. FAO data is displayed in tonnes. Indigenous meat production is excluded.
